INTRODUCTORY

WE present our City Directory of Bloomington and Normal, for January 1, 1904. For many years we have issued to the Citizens of Bloomington and Normal their City Directory, and with each issue we have added new and valuable features.

We take pride in our publication and have never hesitated on expense to improve it.

The number of names in this book is 17,203. Deducting 2,293 for Normal and 500 names for beyond the limits of Bloomington, leaves Bloomington inside the City limits, 14,410, which multiplied by two and one-fifth (the smallest multiple ever used by directory publishers) makes the population of Bloomington 31,702.

Bloomington has experienced a steady and substantial growth since the great fire of June 19, 1900.

Thanking our patrons for their hearty support, we remain,

Very respectfully,

Pantagraph Printing & Stationery Co.

BLOOMINGTON OR McLEAN COUNTY

DON'T OMIT NORMAL

Every week the McLean County *Herald* goes into the homes of the people. There is no choice about it. You must either use the *Herald* or omit the best field in the county, outside of Bloomington.

The *Herald's* advertising patronage has grown each week from the first issue. It has a distinct field to itself. This is absolutely true, and there are two reasons for it. It has the circulation and brings results to its advertisers.

Bookkeepers, Attention!

Save Time and Money by Using Burr's Time-Saving
Trial Balance Sheet. By Far the Best in Use.

It is so arranged that the names of accounts have to be written but once a year, thereby doing away with the arduous labor of writing the names of accounts each time it is necessary to draw off the balances from the Ledger. No matter which side an account may be on, there is always a place for it either in Dr. or Cr. Column.

It is ruled for Ledger Folios, Names of Accounts, with twelve spaces for Dr. and Cr. following each name, for one year's entry, as illustrated by cut.

The BALANCE SHEET is made of a convenient size—Page $10\frac{1}{2} \times 16$ —printed and bound in an attractive and durable manner.

The Sudduth Pear

THE trees bear early, annually and abundantly; attain enormous size and age, have stood an eighty years test, and have never been known to blight. The original tree is eighty-five years old, fifty-five feet high, ten feet in circumference, has often borne eighty bushels in a single season, and for eighty years has not failed to bear an abundant crop each season. The beautiful symmetrical shape of the trees makes them very desirable for ornamental purposes, growing as fast as a soft maple and making as beautiful a tree as a hard maple.

A complete history of this marvelous fruit, also our wholesale price-list of general nursery stock, mailed free.
